SUPPLY SHEET

THESE ARE THE ONLY SUPPLIES
WE CAN SHARE.

All prices subject to change

Effective 3/1/13

For over 40 years, we have always been pleased to share some of our supplies with our kit customers. American manufacturers, some of whom have been in business for over 100 years, are being forced to close...and we are being forced to hoard just about all our supplies for our kits. Therefore, starting immediately the ONLY loose supplies we can offer, when inventories permit, are:

Satin Balls 3":	Red, White Royal, Gold and Emerald Alternate Colors: Hot Pink, Pale Blue, Yellow, Black, Lavender, Baby Pink, Purple, Celery, Dusty Rose, Silver, Desert Sunset, French Blue, Navy, Pine Green, Fawn.	<u>\$2.50 Each</u> <u>\$5.00 Each</u>
Satin Balls 2½"	Red, White, Royal, Gold and Emerald	<u>\$2.00 Each</u>
Corsage Pins	White 2½" Long (Specify Round or Pear Head)	<u>10 for \$1.00</u>
Pearlhead Pins	White 1½" Long	<u>12 for \$1.00</u>
Pins 7/8"	Bag (500) 1/2 lb Pins (approximately 6000)	<u>\$5.25 Each</u> <u>\$19.00 Each</u>
Beading Needles	2 1/2" long, very thin, to accommodate rocailles and bugles Wonderful for swags and dangles (not for sewing)	<u>6/\$2.10</u>
Glue	For as long as I can remember, this is the glue that Paul recommended doing our kits. He found it to be one of the best he ever used. You are purchasing a 4 OZ. bottle.	<u>\$5.00 Each</u>
Glue Syringe	We have found it invaluable for placing a little dab of glue in those inaccessible places, or for making a nice line of glue before adhering beads or jewels.	<u>\$5.50</u>
Nail Punch	Great to keep your fingers from turning blue when pushing in a lot of pins. Sometimes a design calls for VERY close pinning and your fingers, or a thimble are just too big. This is perfect!! We promise!	<u>\$5.00</u>
CD	Your requests for pictures of some of the "Golden Oldies" off the golden oldies sheet is finally here. This cd contains over 125 pictures many of them from various old catalogs.	<u>\$19.95</u>

As always, since we are really not a supply house, all loose supply orders must be accompanied by an order for at least one kit.

***SOME SUGGESTIONS FOR RETAINING YOUR SANITY**

- 1) Put a tiny dab of glue up near the hole, where the satin fibers converge. Do the same at the center bottom. This will help stabilize the fibers as you work.
- 2) If you see that the fibers are still not too steady on the ball, place the ball in a mug, and give it a spritz with your hairspray. LIGHTLY! Immediately the ball will "dull", but when it dries, nearly all the sheen comes back. We suggest you do this as a first step when working on all satin balls.
- 3) It is easy to see where the LAST fibers were wound on the ball. This is the weakest spot. Whenever the instructions call for a braid to be put around the ball VERTICALLY, ALWAYS put it over the weakest spot.

Glass Dome Christmas Ornament Display with Oak Base \$39.95

You have finally finished your ornament, and you know people will want to handle it to look at it closely. This display is a wonderful way to show off your ornament (and your hard work) while keeping it safe and clean.

Angel Stand \$7.00

This stand is 12" tall by 6" wide with hanging area dimensions of 9 1/2" tall by 5" wide. This stand is a high quality display piece with a gold finish over brass. Perhaps you would like to enjoy a different ornament each month, highlight your favorite or special ornament. Here is a perfect way to do just that!

Storage Box \$10.00

Black and Yellow
Store your leftover items for a future project.

Tweezers \$5.00

When it comes to assembling ornament kits, tweezers are a necessity. These tweezers are 6 1/2" long, straight-tipped, and have fine points on the ends.

Tape measure \$4.00

This is a 60" cloth measuring tape with metric measurements on the reverse side. Measuring is essential when assembling Cracker Box kits, and this tape is ideal to do the job!

Magnifying Tweezers \$6.00

Is it getting tricky to see where to apply those embellishments on your ornament? Do you need a better look at where to set in tiny beads? Perhaps you need some help in threading the beading needle. Here's the answer. The tweezers tuck into the handle of the magnifier when not in use. The set is 4" long.

Storage Box \$6.00

Clear
Store your leftover items for a future project.

Pick Set \$7.95

Sometimes beads, braids, or other embellishments need a gentle nudge. Perhaps a combination on a pin was inserted but it wasn't quite the right spot and needs to be moved. Save your manicure and use a pick to lift the pin. Maybe some bead adjustments need to be made in a tiny area. These picks have a plethora of uses. Each pick is 7" long. Four picks to the set.

Beadalon Knotter \$12.00

Trying to tie a knot to secure the items on an ornament can sometimes be a real pain in the keister!!!! This tool will make it very, very simple. We are certain if Paul had known about this, he surely would have used one.

**Revolving Tree Stand – 6ft
Gold Finish \$239.00
Silver Finish \$199.00**

This 72" high rotating tree is similar to the 39" version and is also perfect for displaying up to 120 ornaments. Tree disassembles for easy storage and comes with an AC adapter (no more dead batteries!). Features a gold or silver finish and a removable star. Tree is 24" at its widest, and base measures 24" across. Height includes the star. Perfect for a space where a live tree just won't do.

**Revolving Tree Stand – 39"
Gold Finish \$164.50
Silver Finish \$134.50**

This 39" high rotating tree is perfect for displaying up to 70 ornaments. Tree disassembles for easy storage and comes with an AC adapter (no more dead batteries!). Perfect for a space where a live tree just won't do.
